PERSONAL STATEMENT: I am honored to run again for a position on the Nominating Committee of the Massachusetts Psychiatric Society. I have had 40+ years of experience treating individual patients and teaching medical students and psychiatric residents. I have served as Clinical Director of one of the largest psychiatric hospitals in the Commonwealth, Metropolitan State Hospital and through a combined McLean-Met State Residency Training Program helped with the deinstitutionalization process. I was one of the first psychiatrists to work with the Telepsychiatry Unit between the Mass. General Hospital and the Bedford Veterans Administration Hospital. I served as an Assistant Board Examiner for the American Board of Psychiatry and Neurology. I have worked on inpatient and outpatient psychiatric services at Emerson Hospital and Westwood Lodge Hospital. I am interested in selecting candidates who have an understanding of Collaborative and Integrative Care, the increasing importance of imaging in psychiatry, are comfortable with the Electronic Medical Record, understand the need for us to address the Opioid Epidemic, the increase in Suicides, the role of Genetic Testing in psychiatry and can work collaboratively with our colleagues in the other medical specialties. I will seek out dedicated, bright professionals with broad interests in our field and a strong appreciation for the work of the MPS and the APA.
