Personal Statement: I am honored to be nominated for the position of APA Representative for the Massachusetts Psychiatric Society. It has been a privilege to be a part of the APA for the past 11 years and MPS for the past 8 years. The past year as your APA Representative I have had the opportunity to advocate for our patients and our profession in addressing workforce issues, improving access to care, and maintenance of certification. I hope to improve communication between other early career psychiatrists and the Society, engage other early career psychiatrists in the opportunities MPS offers, continue developing collaborations with other organizations and increase cultural diversity amongst members. I am honored to be nominated and would be grateful to have the opportunity to continue to represent you.
